

Below is the breakdown of 158 Park Model Trailers and Mobile Homes at the FEMA site in Cumberland, Maryland. None of the units have ever been used and except for minor defects noted on the disposition spreadsheet, they are in excellent condition.

Park Model Trailers are smaller in size than the Mobile Homes and measure 12ft by 40ft. They have a 3 axle frame and tongue that allows towing behind the appropriate size vehicle. Permits for towing are required and may require escorts. Requirements may vary from state to state. Gross Vehicle Weight is 18,000lbs and has a 2 5/16" ball hitch.

The Mobile Homes measure 14ft by 64ft and also have a 3, 4 or 5 axle frame that allows for towing by the appropriate size vehicle. Permits and escorts are required for towing. Requirements may vary from state to state. Approximately 30,000 Gross Vehicle Weight and has 2 5/16 inch ball hitch.

Below are links to pictures according to the manufacturer and model of the unit. Click on the link to view the pictures. You can find more information on these units by viewing the separate "Disposition Spreadsheet".
