

Notice . . . DLA Disposition Service-Susquehanna . . . Notice

(RTD Customers: Please take note of this disruption in service starting February 26)

As notified by DLA, GSA is passing on this notice . . .

DLA Disposition Services Susquehanna will be undergoing inventory assertions, meaning it will be performing a floor to record inventory as well as a record to floor inventory. Consequently, DLA-Susquehanna will be closed for RTD Feb 26 - Mar 13 and no 'picks' will be processed during this time frame.

Property will, of course, still be visible during the proper screening cycles and, of course, may be requisitioned; it just cannot be picked up during this time frame. The closure will not cut into Transfer/Donation 21 day pick up allowance and requisitions will not be cancelled.

Please disseminate this information to federal customers and SASP representatives so they are aware of the impending closure and disruption in pick up services.

(Added note: The GSA—Area Property Offices in Pennsylvania and Atlanta will continue to handle transfers to federal and state entities as usual, as the closure will affect only the “physical” selecting and transporting of property and not the “electronic” processing of paperwork.)
