

Personal Property Disposal Solutions for Federal Agencies Free - Training Event

GSA can help federal agencies dispose of personal property that is no longer required to perform the agency's mission.

Each year, hundreds of millions of taxpayer dollars are saved by managers who acquire excess property instead of purchasing new property. Government regulations mandate that federal agencies, to the fullest extent practicable, use excess personal property as the first source of supply in meeting agency requirements (Federal Management Regulation 102-36).
