RESET PASSWORD AND CLUE QUESTIONS SCREEN

You will see the screen below that asks for your current password, a new password and brand new Clue questions and answers.

The screenshot shows the 'Password Change' screen in the GSAXcess Practice system. At the top, there is a navigation bar with links for 'User Guides', 'FAQ', 'Program Links', 'Contact Links', and 'GSAXcess HelpDesk'. Below this, a red banner displays the message: 'Your Password has been Changed Successfully... Click Submit to Continue'. The user's information is shown as 'User ID: WH077' and 'User Name: TEST GTDEN'. The form includes three password fields: 'Enter Current Password', 'Enter New Password', and 'Confirm New Password', all masked with asterisks. A note specifies that the new password must be between 8 and 16 characters and contain a number, lower case, upper case, and special character. Below the password fields, a message states 'New Password will expire in 90 Days'. The 'Security Questions' section is titled 'Please setup Security Questions and Answers to be used in resetting the password' and includes a warning that 'Security Question Answers are Case Sensitive'. It contains three rows of questions and answers: 'Security Question 1*' with answer 'favorite color', 'Security Question 2*' with answer 'favorite friend', and 'Security Question 3*' with answer 'best teacher'. At the bottom of the form are 'Exit', 'Cancel', and 'Submit' buttons.

- **PASSWORD:** must contain a special character, an uppercase and a lowercase letter, a number and be between 8 and 16 characters. NOTE: Passwords will need to be reset every 90 days for all customers and you will be reminded when due upon login.
- **CLUE QUESTIONS:** you can set your clue questions and answers to anything you like but make sure you can remember your answers. Answers must be a minimum of five characters. NOTE: clue answers are CASE SENSITIVE.

System messages direct you to click Submit again to proceed into GSAXcess®.
